**GATE OPTION**

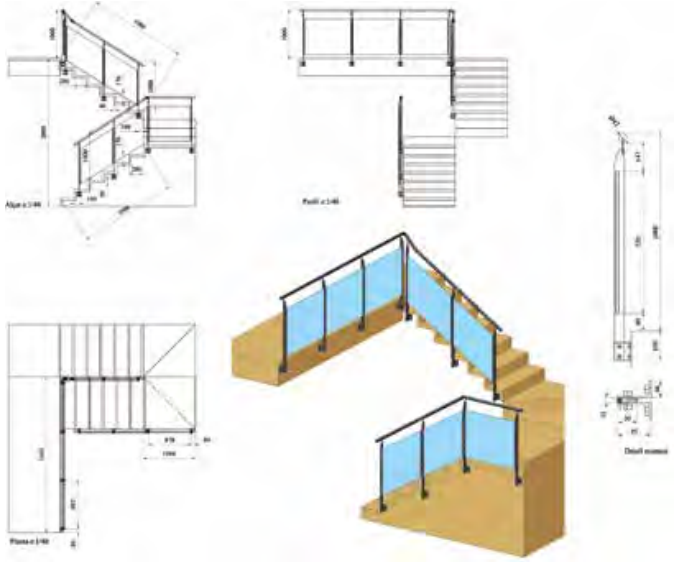

**GATE OPTION**

**EASY TO MOUNT**  
We deliver each project ready to mount. It is not necessary to weld or cut on site in any moment.

- QUALITY**
- Marine quality 316L for out-door use, or in case of in-door use 304 is also available.
  - Solid upright 50 x 12 or tube upright 40 x 40.
  - Welding, cutting and mechanization are carried out in our installations, which assures a finish of a superior quality.
  - Available in brushed or polished finish.

**FLEXIBILITY**  
Send your drawings and description, and our technical department will make sure our balustrade fits your project. You will get a 3d drawing for approval.
